THE MARCY TESTIMONIAL BY MERCHANTS OF Maw-Your.-Last Spring some of our leading and influential merchants ordered the manufacture of a service of plate for presentation to the Hon. William L. Marcy, late Secretary of State, and the order has just been completed by Mesars. Tiffany & Co. of Broadway, at whose store it will remain a few days en exhibition. The order was given long ago, but the work, from its elaborate nature, consumed much time, and before it could be completed Mr. Marcy died The service will accordingly be presented to the family of the deceased, and will no doubt be held in high estimation by them, coming as it does from the leading merchants of the Metropolitan City of the

The entire service, excepting the knives, is of solid silver, and consists of six dozen each of spoons and folks, of all sizes (the knives being of fine steel, silver-plated, with carved ivory handles); two soup turreeus and calvers; one fish dish and cover; six dishes, with coveres for entries (the covers of these being so constructed that they can in a moment be converted into dishes); six vegetable dishes with covers, four having stands and heaters; two gravy boats; two pitchers; four pairs of sait-cellars; one center piece, designed for fruit; coffee-pot; tea-pot; kettle for hot water, with heater; cream-pot; sugar-bowl; slop-bowl; and oval salver thirty inches in length. On the salver appears the following inscription:

Presented with a Service of Plate, Presented with a Service of Place,
BY MERCHANTS OF THE
EITY OF NEW-YORK.
To The Secretary of State.
In token of their high appreciation of his
Wise and able administration
of the
Foreign Affeirs of the Country,
During his term of other.
A. D. 1837.

The center piece is one of the most beautiful and elaborate pieces of workmanship of the kind we have ever beheld, and needs to be seen in order to be fally comprehended. The main piece is nearly four feet in hight, including the pedestal, which is oval in form. From the center of the pedestal rises a conical column, near the top of which branch out four arms supporting as many cut glass dishes-at the top of the column is a larger dish—these dishes being designed for fruit and flowers. Beneath two of the smaller dishes are two figures thirteen or fourteen inches in hight, representing COHNERCE and PEACE. The left hand of the figure of Commerce rests on a globe standing on a pedestal, at the foot of which appears the rudder of a ship.

Peace holds in one hand a pen and in the other a crown of laurel—at her side is a pedestal, at the foot of which stands a trumpet, while on top is a scroll. At the feet of these figures, on one side is an Eagle with spread wings, and on the other the coat of arms of the State of New-York in relief. The entire piece reste upon a large plateau around which is an inscription similar to that on the salver above mentioned. Every one of the pieces is marked with a large Old

Mesars, John A. Stevens, Chairman, John G. King

and Royal Phelps composed the Committee appointed by the merchants to superintend the work. The serwice cost \$10,000. HONOR THE MIGHTY BRAVE-THAT SNEETY-BOX

Again.-The New-York Volunteers, or a portion of them rather, had another exciting time last Wednesday night, at a meeting held by them at the Mercer-House. Our readers will remember that a row oc curred at their last meeting, on the 10th of August, on account of which various little pieces of business were eccessarily postponed to some more aspicious occasion.
mong these was the remort of the Awarding Committee, which the Secretary proceeded to read night before last. This report, after extolling the merits and bravery of Major Garret Dyckman, concluded by awarding the Jackson snuff-box to that undaunted and invincible individual. Upon the Chairman of the meeting, who was no less a perconage than the worthy Major himself, declaring the report to be accepted, several dissatisfied persons who were present retired from the room, giving utterance on the way to expressions of their displeasure. The number being now reduced to eighteen, the report was passed unanimously, and a Committee was appointed to confer with the Common Council respecting the transfer of the box, the gallant Major promising to make an eloquent and interesting speech if it should ter rests at the him There the present moment. Long will the tale be told how it went onward.

THE LATE RIOT AT THE CITY HALL .- Eugene Sullivan, of No. 40 Madison street, was arrested yesterday by Officer Slater, of the Fifth Precinct, charged with having, on the 16th day of June last, committed a felonious assault upon him while in the discharge of his duty. At the time in question Officer Slater, with others, was assisting Coroner Perry in the service of a warrant which had been issued by Recorder Smith for the arrest of Mayor Wood. The riot that ensued upon this occasion is well remembered, and during ans riot, as is alleged, Officer Slater was as acted by Sullivan, who nointed a coaded pistol at and threatened to shoot him. The officer, not at all alarmed, faced the music, and walking up took hold of him, when the pistol was struck from Sullivan's hand to prevent his committing murder. Previous to this, however, Sullivan, while standing upon one of the upper steps leading to the City Hall, said to Slater, who stood below, you come up here I will kill you." Slater did go up, and seized Sullivan and brought him down. Justice Connolly, before whom the complaint was

brought, considering that a clear case of felony was de out against Sullivan, ordered him to find bail in the sum of \$500 to answer. Richard Barry, of No 488 Pearl street, became Sullivan's surety.

THE COUNTERFEIT MONEY CASE. -No further complaints were made yesterday against the parties ar-rested on Tuesday night charged with passing counterfeit \$5 bills on the Lee Bank. Some more of the money was passed about the city on Wednesday night, but no arrests were made. Yesterday afternoon Justice Flandreau had the

prisoners brought before him, and, upon their undergoing the following examination, committed them to prison in default of bail.

prison in default of bail.

NEW-JERSEY ITEMS.

THE OFFICIAL SQUARRIE.-Those firemen of Ho boken who sustain the Chief of the Department in his rivalry with the Chairman of the Commes Council Committee on Fire and Water, held an indignation meeting at the Town Hall on Wednesday night. They presed resolutions and made speeches in his support, and appeared a Committee to draft resolutions in favor of Legislasive action severing the dependence of the Fire Department upon the Council.

Gas in Railhon Cans.—The New-Jersey Railroad Computy has successfully fried the experiment of lighting a cur by gas. The experiment was tried on a car of a Newark train from Jersey City. On Wednesday picht, and lest night, one of the cars of the train to Philiadelphia was lighted in the same manner. The gas is taken from the pipes of the Gas Light Company, and pressed into an apparatus to which machinery is attached, which affords force to make the gas they steadily for several hours.

GONE TO SEA.—Two girls, about 18 years of age, to have been employed in the confectionery and the confectionery and the confectionery first store of Mr. Caffrey in Myrigomery first, 199

Pased shills of man previous, pretending that it was for lade "in the country" of about their size. They also had their hair out short off. It is believed that they left with the explain of a schooner with whom they were somewhat sequainted. The schooner sailed yesterday.

Accidents.-John Wabster fell off a loaded care in Accinests.—John Wobsier leif of a loaded car, in York street, Jersey City, yesterday, was run over and badly injured. He was taken to the New-York Hospital.

A little girl was run over by an employa in Mont-

A little girl was run over by an emmous in Motor-gomery street, Jersey City, on Wednesday evening, and had an arm and a leg fractured.

John Happer and John Brown, carpetters, at work putting a cornice upon a house in the City of Hudson, on Wednesday, fell and were severely injured—Hopper probably fatally.

A DANGEROUS COUNTERFEIT .- The spurious \$5 A DANGING COUNTERFIT.—The spurious so bills on the Lee Bank, Massachusetts, circulating in New York, have made their appearance here. One of them was shown to us this morning, having been passed off to a grocer in this city, and was only detected when offered at the counter of one of our banks, the teller having had his attention directed by the notice published this morning in the New-York papers respecting this issue—otherwise he would have taken it. It is the most dangerous counterfeit we ever saw, being a remarkably well executed imitation of a new issue of the bank, which has not yet get into general circulation.

[Newark Daily Advertiser.

The prisoners in the Burlington County Jail made an attempt to escape on last Saturday night. By means of aquafortis they softened the iron of their cell locks, and succeeded in forcing them. Their plans were disclosed just before they designed leaving, and they were secured.

THURSDAY, Aug. 20-F. M.

There was a better feeling at the Stock Board this morning, and in most descriptions higher prices were realized. The movement in Southern Michigan was less active than yesterday, but the quotation advanced to 291, an improvement of 11 ? cent. The Guaranteed Stock was very buoyant, showing an improvement of 4 & cent, and 10 & cent from the lowest figure touched a day or two since. Erie was active and improved to 30]. Reading was steady at yester-day's prices. Toledo shows a further decline of 1 ** cent. Galena advanced 1 ** cent and Rock Island 1 P cent. La Crosse was the weakest stock, falling off to 271. Pittsburgh declined ! P cent. In Railroad Bonds the transactions were moderate and the market irregular, without important change. In most of the leading fancies cash stock is still quite scarce, and can be lent without interest. The time cales at the Morning Board were 5,000 shares on seller's option, and 3,000 shares on buyer's option. The bears appear to press the market with almost [as much vigor as when prices were considerably higher. The recent fall in Southern Michigan and Toledo has encouraged them as to the general tendency of the market. State Stocks are dull, there being no transactions, excepting in Missouri 6's, which sold at 78. At the Second Board there was a better feeling at the opening; but the market closed dull. Southern Michigan, 29, guaranteed 561: Toledo, 421, which is better;

Central, 771; La Crosse, 271, &c.
The rates of Freight are firm. To Liverpool, 7,500 bush. Grain at 3d., in bags; 100 bales Cotton at 3s. * bale; 800 bbls. Rosin at 3s. 6d.; 100 bales Hemp at 2s.; 5,000 hhds. Staves at 32s. 6d.; 5,000 pipe Staves at 40s. To Hamburg, 300 tuns heavy and measurement goods on terms we did not learn. To Marseilles, a bark was taken to load light pipe Staves at \$22 50 and one with a full cargo for the round sum \$22 50. A ship from James River to Havre, with 1,250 hhds. Tobacce at 25s. A schooner of 246 tuns from Minitlan to New-York with Mahogany at \$10 under deck and \$8 on deck. A schooner from Baltimore to Turedina for \$800 and back: from Pilatka to Newburgh with flooring boards at \$9 50.

The business of the Sub-Treasury was: Receipts.

\$149,931 50; Payments, \$171,975 23; Balance, \$12, 285,974 10.

The Eull's Head Bank has declared a semi-annual dividend of 4 ? cent, payable on the 1st of Sept. The tells received upon the canals of this State for the second week in August, and from the opening of

navigation, were as follows: | Second week | Total to | Second week | Total to | In August. | Aug. 15. | In Aug. 15. |

Showing a falling off this year, thus far, in comparson with last year, of \$189,880; and in comparison with the tolls of 1847, amounting to \$002,232.

At a meeting of the Directors of the Michigan Southern Company to-day, Mr. Talbot Olyphaut was elected Director in the place of Mr. Chas. Butler, resigned. It was also resolved to submit to the public the loan of \$1,600,000, which we have before alluded to, secured upon the stocks, &c., belonging to the Company, and with a sinking fund of \$180,000 per annum. It was resolved some days ago to move the offices of the Company from this city to Michigan as

soon as arrangements can be made.

The consolidation of the two roads between Chicago and Milwaukee is now complete; the stockholders of both Companies have voted to accept the award of the arbitrators. This award gives the lower Company, between Chicago and the State line of Wisconsin, \$500,000 of the stock of the Consolidated Company, in addition to the amount of their own stock. The road now stands, stock and bonds, about \$1,000,000 for 85 miles of road.

We hear of about \$250,000 in gold engaged for the

Saturday steamer.

The Independent of to-day publishes the following

The Independent of to-day publishes the following list of failures, suspensions, &c., for the week:

Its Warren, Boston, Mass., gone into insolvence.

Henry K. Tłymas & Co., "tobacco." New York City, suspended, in consequence of decease of Mr. T., with liabilities of about \$\pm\$ 400,000, but state they have a large surplus, and will probably only require a little time.

Grigs & Lathrop, Bankers and Stock Brokers, New-York City, suspended.

James T. Derrickson, "Paper," New-York City, suspended—liabilities said about \$100,000.

Stitle & Mendel, "Fancy Goods," New-York City, assigned.

Albert Salters, "Clothing," New-York City, assigned.

Francis Davis, Troy, N. Y., failed and assigned.

E. C. & C. C. Terry, Hudson, N. Y., failed—offer 33 \$\psi\$ coat. Dunson & Sprague, Johnstown, N. Y., reported last week, should have read Gleversville, N. Y., sasigned; liabilities said over \$\pm\$ 30,000.

E. C. & C. C. Ferry, Hudson, N. Y., talled—ofter as \$\psi\$ cont. Dunson's Sprague, Johnstown, N. Y., reported last week, should have read Gloversville, N. Y., assigned; liabilities said over \$50,000.

Harvey Pearce, Westport, N. Y., assigned.
Ramon Deshon, Oakneld, N. Y., assigned.
John S., Graham, Mount Flessant, Penn., suspended.
John Taylor & Co., Cincinnati, Ohio, assigned; habilities said about \$40,000.

Froderick Bleyle, Chaftstown, Ind., failed and assigned.
Thompson Bissell, Valperaiso, Ind., smigned.
A. Childs, Altoons, Ill., failed.
Omar Tourcy, Fort des Molies, Iowa, failed.
G. G. Dennis, Princeton, Iowa, failed.
H. B. Pani, Janesville, Iowa, failed.
H. B. Pani, Janesville, Iowa, sasigned about \$100,000 and the continuity sufficient to pay in rail. An lagunction has been served upon them to payennt a disposal of their property. Creditors expect full payments, as they believe sir. Shaw, the special partner, is liable for all the debts, the copartnership nathaving been duly advertised.

The same paper thus notices the dry goods trade:

special partner, is liable for all the debts, the copartnership net baving been doly advertised.

The same peper thus notices the dry goods trade:

"Business has considerably increased since our last report. Though there is a large amount of goods in market, yet the supply of desirable kinds is limited, while the demand for such is active and on the increase. Silk goods appear stendy in price, but without any advarce to correspond with the increased cost in Europe. The auction sales have become active for the season, though the sales of French silks at auction will not commence before the 1st of September.

"French merinos, delaines and bombazines were extensively sold on Friday by Wildermings & Mount, and brought good prices, the consumption being active. Staple linens are brisk of sale, and foreign cloths meet with a good demand at steady prices. Ribbons are rather dull of sale. The importations of foreign goods to order are restricted, but a considerable amount of miscellaneous goods, not of a desirable character, are coming out on commission for the chance of a market, under an impression that the reduction of duty would render them marketable.

under an impression tall.

"All old steck is dull and heavy, but fresh desirable goods are firm. In goods of domestic manufacture there is a steady business doing at pretty uniform prices, which are firm. The South and South-Western business." traders have been having freely, and Western buyers are numerous. Prices of cotton staples are maintained y the diminution in their manufacture."

We have received the annexed explanation from a entleman personally known to us: To the Editor of The N. Y. Tribune.

To the Editor of The N. Y. Tribune.

Sig: You copy a notice of the judgment against the Black River and Utica Railroad Company in your money article of yesterday, from The Utica Herald, which, in justice to parties interested, in your city and elsewhere, ought to be explained. The Cashier of the Ontario Bank in whose favor the judgments were entered) and the Treasurer of the Railroad, are one and the same individual. The Bank sued and served notice on the Treasurer, taking judgment by default, no other officer of the road having any knowledge whatever of the suit.

about 150 guests from Baltimore, New-York, Harrisburg, &c. A correspondent of The Baltimore Patriot, who was present, gives some interesting facts in regard

burg, &c. A correspondent of The Baltimore Patriot, who was present, gives some interesting facts in regard to this enterprise. He says:

Port Trevorton is situate upon the banks of the Sasquehanna, about 42 miles above Harrisburg. This is the great depot of the Trevorton Coal and Rairoat Company. Here has been built an immense bridge, 3,600 feet in length, at a cost of a quarter of a milli in of dollars. Thus the Coal is taken over, and shipped in boats on the Pennsylvania Canal.

The works are very extensive and costly. A tavern and quite a number of dwelling houses, with their inhabitants, mostly laborers, constitute the village. The Railroad connecting Port Trevorton with the mines, also the mines with the Northern Central Railroad track, as now opened, is fourteen miles long, constructed in the very best manner, at a cost of probably \$1.400,000. Our special car was placed upon this iron pathway, and passing up the Mahanoy Valley, between the Big and Little Mahanoy Rivers, beautiful wild scenery on either side, we soon found ourselves at the celebrated mines, ascending at the rate, when approaching closely, of 180 feet per mile. Our steam horse, untiring, snorted in his full strength, and placed us comfortably at Trevorton and the coal mines, also in a delightful village, about 1 o'clock in the afternoon.

After describing the journey, he says:

We visited the breaker, an immense and costly structure—the largest, probably, in this country. Here, by means of machinery, propelled by steam, the coal, after being taken from the mines, is broken, cleansed, graded, assorted and prepared for sale. This breaker was erected at a cost of \$10,000, and it is capable of turning out, in car-loads, 10,000 thus per day. The head carpenter, an humble mechanic, but a man of genius, though residing obscurely in these mountains, has recently invented a very ingenious and valuable machine for separating slate from the coal.

It is a sort of revolving sieve, and I am told acts to admirable purpose. Formerly forty or fifty boys w

in waiting.

George W. Beebee, President of the Trevorton Coal and Kailroad Company, a gentleman distinguished for his accomplished qualities, superior practical intelligence and business energies, presided at the table, doing the horors with especial grace. After partaking sufficiently of substantials, the cloth was drawn, when sorg and sentiment went round, interspersed with sparkling scintillations of wit. Mr. Beebee being called upon made a brief, appropriate speech. He did not, however, profess to be a public crater. He was thankful for the many kindnesses shown by those present—was pleased at their response in being present at this entertainment. He looked upon the present occasion, dedicated to the opening of these coal fields, and connecting their rich treasures, by means of direct railroad communication, with the resources of our seaboard cities, as an event of great moment, with reference as well to political economy as to the commercial, business and industrial interests of our common country. Several other gentlemen made addresses.

Accompanied by Mr. Beebe, President, and other officers of Company, we paid a visit to the mines for the purpose of more minute examination. We entertered one of the tunnels in cars drawn by mules, and penetrated a distance of 2,240 feet directly into the monutain, following an immense vein of coal. Miners

the purpose of more minute examination. We entertered one of the tunnels in cars drawn by mules, and penetrated a distance of 2,240 feet directly into the mountain, following an immense vein of coal. Miners were busily engaged getting out huge masses of coal from veins, to every appearance, inexhaustible.

There are, I believe, twelve veins in this mountain, all dipping far down and rising to the very summit. The Company owns about ten thousand acres of coal fields, consisting of what is known as the Trevorton mines, containing an amount of coal (hundreds of millions of tuns) and mineral wealth almost beyond computation. They are now prepared to send if to market to Baltimore especially) since the opening of the Northern Central Rainway, connecting directly with their own road and the mines, to any desirable extent, the amount being circumscribed only by the capacity or tunnage of the medium of conveyance. The quality of this coal for many purposes, driving machinery, locomotives, &c., likewise for other uses, is fully equal to the Camberland, and can be obtained for Penseylvania works, and for service elsewhere in the United States, at cheaper rates. It is semi-bituminous, clean, free from extraneous substance, and exceedingly handsome in appearance.

The Trevertor Company have now in readiness

ceedingly handsome in appearance.

The Trevorton Company have now in readiness about 1,000 new coal cars, which they design, very about 1,000 new coal cars, which they design, very soon, putting into active service in corveying coal over the Northern Central Railway to Baltunore. It will be deposited at their immense depot in Canton. This must open up a new business there, give a decided impetus to industry, and eventually not only cheapen the price or fuel but give a renewed impulse to the trade of Haltimore.

The village of Trevorton numbers about 300 houses, three fine hotels, and probably 1,500 inhabitants.

Markets .. CAREFULLY REPORTED FOR THE TRIBUNE.

Sign: You copy a notice of the judgment against the Black River and Utica Railroad Company in your morey article of yesterday, from The Utica Heruid, which, in justice to parties interested, in your city and elsewhere, ought to be explained. The Cashier of the Ontario Bank in whose favor the judgments were entered and the Treasurer, taking judgment by default, no tice on the Treasurer, taking judgment by default, no tice on the Treasurer, taking judgment by default, no tice on the Treasurer, taking judgment by default, no there office of the road having any knowledge what ever of the suit.

The Directors of the road claim that they owe the Bank less than one half the amount for which judgment is rendered, not a dollar of which was overdue, and the books of the Treasurer, at their office, and the books of the Treasurer, at their office, and the books of the Treasurer, at their office, and the books of the Treasurer are found in such company, furnished by the Treasurer, at their office, and the books of the Treasurer are found in such constraints as to require tanscribing before any intelligent balance can be obtained.

Such is a brief statement of the matter, and the conclusion is shat the Court at once suspended the judgment on motion, and the Treasurer has been removed from his office in the Company.

The opening of the Northern Central Railroad, which has recently taken place, has given direct connection between Baltimore and the mines of Trovotton Coal between Baltimor

cause of 450 bales at 14c. cash, 6 months, and now held bales. Gunny Gloth—this article is very firm, and the advices from the South report a better feeling in all the principal markets was as if the 6 months; for a lot of 400 bales 212 Gloth, the hat has elees, 100 bales very light at 130c and 20 bales 220 Rbs. average at 14c. 6 months; for a lot of 400 bales 212 Gloth, the hat has elees, 100 bales and 11 is generally held at 14 juich. At the close, 100 bales and 11 is generally held at 14 juich. At the close, 100 bales are close, 100 bales and 11 furnished at 150 Glob at 150 Glob. HAV—the domesd is fair for shipping, and prices are street as a cost 700 bales at 150 Hab. 9 to 15.

IRON—Sort he fig continues quest, and the market is a ship that the 150 Glob at 150

WHISKY—The market is easier, the supply decray sizes of 400 bbls, at 28 at 29c., the latter an extreme price.
